

The Capital District Wildlife Management Area which surrounds Cherry Plain State Park features bogs, forests, and hollows. Popular recreational activities include hunting, trapping, hiking, birding, and cross-country skiing. The area also supports a variety of wildlife, including deer, beaver, wild turkeys, and moose.

Map created by Andy Arthur on 11/19/2025 in QGIS 3.44.4-Solothurn. Contains NYS GIS and DEC data with additional campsites added by Andy. More maps at andyarthur.org.
