

The **Ashokan High Point Trail** is a moderately challenging, 7- to 9-mile hike in the Catskills' Sundown Wild Forest. It offers a gradual climb along Kanape Brook before a steep ascent to the summit, where hikers are rewarded with views of Catskill High Peaks (7 miles designated loop trail), and/or the Hudson Valley and Ashokan Reservoir (9 mile bushwhack).

Map created by Andy Arthur on 10/9/2025 in QGIS 3.44.3-Solothurn. Contains NYS GIS and DEC data with additional campsites added by Andy. More maps at andyarthur.org.
