

The 51-acre **Montrose Point State Forest** is managed cooperatively with Westchester County Parks, which oversees the maintenance on the property. A brick factory was once on the site and the area was heavily mined for the raw materials for this industry, leading to the rolling nature of the topography. Walk the trails to visit the "brick beach," where hundreds of bricks were discarded, and take in scenic vistas of the Hudson River Valley.

Map created by Andy Arthur on 10/23/2025 in QGIS 3.44.3-Solothurn. Contains NYS GIS and DEC data with additional campsites added by Andy. More maps at andyarthur.org.
